

# **Help Yourself App**

## **OVERVIEW :**

This app is mainly developed to inculcate amongst all masses the knowledge of first-aid and to justify its importance in everyday life. As also, how we can use it practically to save someone's life.

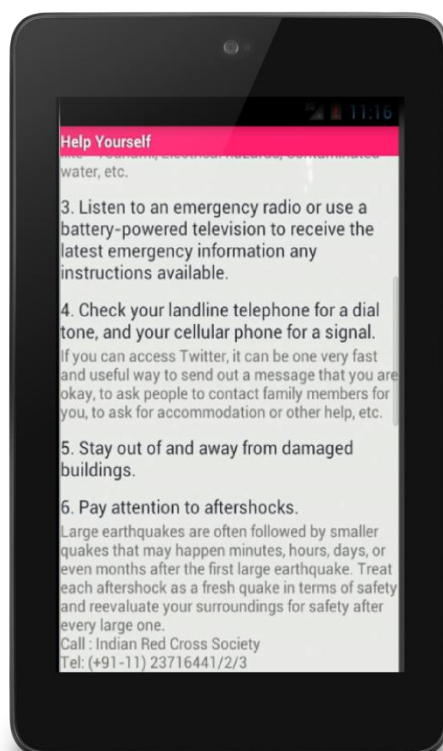

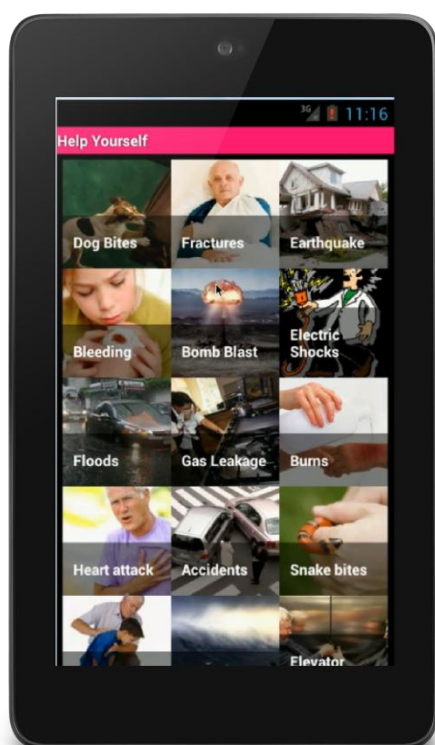

## **HOW TO INSTALL –**

1. You will need an Internet connection.
2. Download the APK file from github link and install it using appropriate Package Manager software.
3. To complete the installation process, click YES to the question - “Do you want to install the application ? “.
4. The app will now be installed on your device.

## **HOW TO START –**

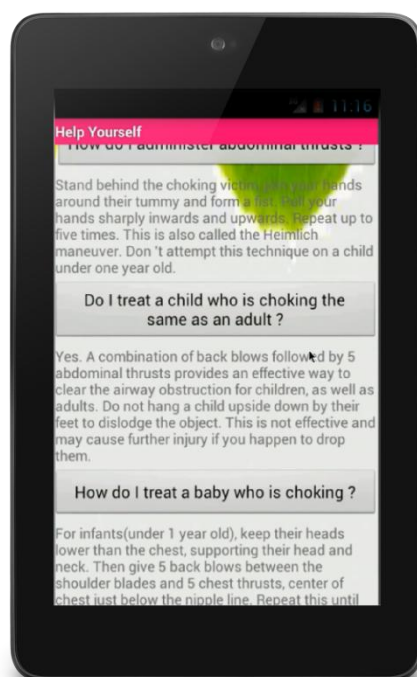

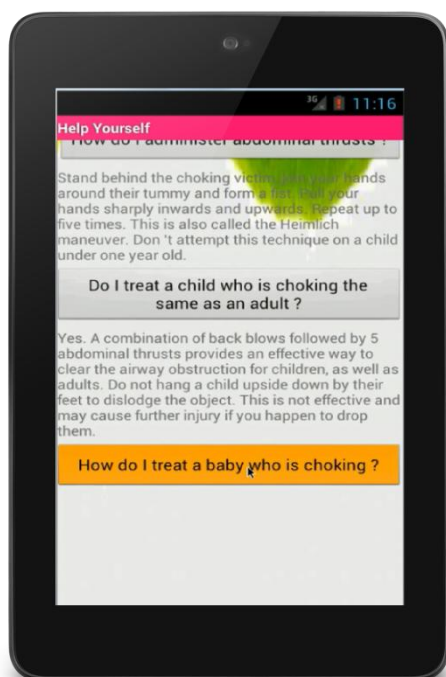

1. Click on the “Help Yourself App” icon.
2. Now, you will see a grid of images, each depicting some sort of injury or accident that requires first aid help.
3. Select one image at a time to know about its treatment and precautions.

Consider the following screenshots as reference –

## DETAIL USAGE –

Additional information for some accidents and/ or injuries is provided in 'Q&As' (Question and Answer format).

You may click on the questions to access the answers as shown above.

### **WHATS NEW –**

1. User-friendly language.
2. Images for better understanding, unlike normal lists that just display names.
3. Interactive yet, simple and effective User Interface.
4. No need of INTERNET, so app can be easily assessed during any time of need.
